

## Texas DIR Contract: DIR-CPO-5317

---

Texas Department of Information Resources

State agencies seeking GEC's software solutions can now leverage the Texas DIR cooperative contract for simplified procurement. GEC is a proud contract holder with the Texas DIR, offering pre-vetted solutions through this established, competitively awarded contract.

Benefits of Utilizing the Texas DIR Contract with GEC:

- **Pre-Negotiated Terms:** Eliminate lengthy RFP processes and expedite acquisition through pre-approved contract terms.
- **Cost-Effective Solutions:** Access competitively priced solutions leveraging the bulk purchasing power of the DIR program.
- **Expedited Implementation:** Utilize streamlined implementation timelines with expert support from GEC.
- **Compliance:** Be confident that GEC solutions meet all DIR contract requirements and state procurement regulations.

[Click here](#) for an overview of the Texas DIR Co-op Contract Program.

### **Products, Services and Pricing Discounts:**

For direct and efficient procurement, GEC eliminates the need for resellers and external order fulfillers, working directly with state agencies. Appendix A (below) provides a detailed breakdown of pricing for each GEC Software Application included in the Texas DIR contract. Listed alongside the MSRP (Manufacturer's Suggested Retail Price), Texas DIR members benefit from a discounted rate of 10% off MSRP. State agencies acquire GEC software through a one-time license fee per application, followed by annual Software-as-a-Service (SaaS) fees based on user count.

### **Warranty and Return Policies**

At GEC, we are committed to exceeding our clients' expectations. We utilize strict quality control measures and track performance metrics, such as on-time delivery and client satisfaction, to ensure we consistently deliver high-quality solutions. We are very confident in our applications and capabilities, offering a 99.98% uptime guarantee for our software applications.
